

Yorkshire

1,201 sq. ft. | 1 Bedroom | 1.5 Bath | 2 Car Garage

A fresh take on one of Prominent's most-loved bungalow plans, the Yorkshire brings everyday living together on one comfortable level with even more room downstairs. The primary bedroom is located on the main floor with the flexibility to turn the flex room into an additional bedroom. Downstairs, choose to develop the 900 sq. ft. basement for two additional bedrooms, another full bathroom, a rec room, and additional storage space. Add the optional bar to create a welcoming spot for movie nights, game days and time with friends. It's a thoughtful choice for anyone ready to simplify their space without giving up room for family, guests or the things they love.
